Indianapolis. Ind., Dec. 26.—Whatever is to be the outcome of the three months "dynamite conspiracy" trial in which forly labor union officials are accused of complicity in the McNamara plots to destroy property, including the wrecking of the Los Angeles Times building, where twenty-one persons were killed now rests with the limit. Caling attention to the charges of illegal transportation, the court stated: "You may find the defendants guilty upon all of the counts of the indictment upon which they are now upon trial, if you are satisfied, beyond a reasonable doubt that the proofs justify it. Or, you may find the defendants guilty upon any one or more of

the wrecking of the Los Angeles Times building, where twenty-one persons were killed, now rests with the jury. Federal Judge A. B. Anderson a few minutes after 5 o'clock tonight instructed the jury and ordered it to re-tire. The court then adjourned until 3.29 a. m. temorrow, thus precluding the return of the verdicts before that time, should they be found. All the verdicts, while separate as to each defendant, are to be returned at one time.

Twelve Weeks Putting in Evidence. Twelve Weeks Putting in Evidence.

"How long will the jury be out?"
was the quastion asked as the jury
filed out. A basis for a belief that

dence.

The defendants who await the outcome include Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, of which John J. McNamara, the confessed dynamiter, was once secretary; various executive board members of that union; Harbert S. Hockin, accused as an accomplice of Ortic McManigal, another confessed dynamiter; Olaf A. Tveitmoe, secretary of the California Building Trades council; Eugene A. Clancy, San Francisco, and J. E. Munsey, Salt Lake City, Utah. The three last named are charged with promoting the Los Angeles explosion.

Are Charged With Conspiracy.

Are Charged With Conspiracy. Are Charged With Conspiracy.

These men are not charged under the federal laws with personally causing any explosion. They are charged with conspiracy to violate the federal laws and with aiding in an illegal transportation of dynamite and nitrogiverine on rassenger trains.

In closing his argument to the jury, District Attorney Charles W. Miller, again referred to the argument of United States Senator J. W. Kern, counsel for the defendants. Senator Serr had left the city, saying he was going to W. thington.

Another Wheek at Sanator Kern.

Another Whack at Senator Kern.

The Los Angeles Times building explesion was called the crime of the century," said Mr. Miller, "but the real crime of the century was this damnable conspiracy. It would be an everble conspiracy. It would be an everlasting disgrace to our country and to
our civilization if these forty conspirators are not convicted. Gentiemen
of the jury, a United States senator,
sworn to uphold the laws of his country, has dared to stand before you in
defense of these enamies of the republic. You should find these conspirators
rullly and put your seal of condemnation upon such conduct by a United
States senator.

After stating the substance of the
various offenses charged and mentioning the nation-wide strike of the iron
workers union, which, the government
charged, was the motive for one hundred explosions on the work of contractors who refused to recognize the
union, Judge Anderson in his instructions said:

Judge's Instructions to Jury Judge's instructions to Jury.

"It was not unlawful for the structural fron workers to organize the union to which they belong. It is not unlawful for the defendants to be members of that or any other labor organization. Men have the right to use their combined power through such organizations to advance their interests in any lawful way; but they have no right to use this power in the violation of the law. Organized labor is not on trial here, nor is the right of labor to organize in issue, but members of labor organizations owe the same punishment for its violation as persons who are not members of such organizations.

The defendants are not on trial for causing these various explosions and the consequent loss of life and prop-erty throughout the United States, shown by the evidence. They are on trial for the offenses charged in the indictment. Evidence of these explo-sions, together with the facts and cirsions, together with the facts and circumstances surrounding them, were
permitted to go in evidence before you
hecause they tend to show the community of purpose, the concert of mind
and action, which is an essential ingredient of the offenses charged, and
they should be considered by you upon
that languaging.

The evidence in this case shows that in August, 1905, there was a controversy between the International Association of Bridge and Structural Iron Workers and the American Bridge company, over the open and closed shop question; that in said month of August, 1905, the International declared a general strike against the American Bridge company; and that this strike has never been settled. If you find from the evidence that in order to carry out the purposes of the International, the defendants, or two or more of them, entered into a conspiracy to desiroy with dynamite and nitro-glycerine the property of the American Bridge company and other open shop concerns or the structures which they were crecting in various states of the union, and if you find that such conspiracy to destroy such property included as a necessary step in the accomplishment of such destruction the unlawful transportation of dynamite and nitro-glycerine upon the vehicles of common catriers engaged at the time in the transportation of passenhe evidence in this case show and nitro-glycerine upon the vehicles of common carriers engaged at the time in the transportation of passengers, from a place in one state to a place or places in another or other states of the United States, and if you further find that such destruction of property was accomplished by explosions of dynamite and nitro-glycerine in various places throughout the United States and that the dynamite and nitro-glycerine with which such explosions were produced were as a matter of fact transported from state to state in sulfcases and carrying cases

Boston, Dec. 26.—"There is one thing about the railroads of this country and that is that they don't know what they are doing. They don't know whether they are going right or wrong," said interstate Commerce Commissioner C. A. Prouty at the close of today's hearing on the complaints of New England shippers on freight service and rates. No Uniform Standard,

Commissioner Prouty had called a halt in the proceedings late in the day to remark on the lack of a standard for doing business among the railroads of the country. He suggested that some of those most interested get together to formulate a tangible suggestion as to just how the commission can order the railroad service of New York of New Yor can order the railroad service of New England Improved. He named on the committee Robert Homans, counsel of the Easton chamber of commerce: D. O. Turks Exchange Cipher Despatches. The exchange of cipher despatches between the administration at Constantinople and Rechad Pasha con-tinues, but the chief of the Turkish plenipotentiaries declines to divulge the nature of the reply which he will present to the allies on Saturday when present to the allies on Saturday when the conference reassembles at St. James palace. It is understood that this will be already outlined with the additional promise that Turkey will apply to the European territories re-maining to her the reforms which Count Von Berchthold, the Austro-Hungarian foreign minister, proposed before the war.

"Allies' Terms Are Absurd." "While I cannot discuss the reply of the Ottoman government," said Richad Pashs tonight, "nothing prevents me from saying that the terms the allies have proposed are simply absurd. They have produced this impression wherever heard, even outside of Turk-ish circles. It was never known that ish circles. It was never known that after the conclusion of an armistice one belligerent party could ask the other to cede territories bravely defended and still resisting with hero-

Turks as Humanitarians. "Why should we do this, especially when the Bulgarians had three reverses at our hands just before the armistice, while the Greeks, who continued to fight, were defeated both on land around Janina and at sea off the Dardenslies." Dardanelles?

Our danceles?

"Turkey was induced to accept an armistice only on the advices of the powers, in order to avoid useless carnage on both sides. The same humanitarian reasons led the Ottoman gov-ernment to ask for the revictualling of the besieged towns and might induce the government to yield certain con-ditions for the sake of peace. But there is a limit which the allies have surpassed." "Turkey's Talk Laughable." The allies, on the other hand, as-serted that the armistice was arranged

to give Turkey an opportunity of mak-ing peace terms without suffering fur-ther losses in the field, and they charther losses in the field, and they char-acterized Turkey's talk of keeping Adrianople, Janina and Scutari and regaining Saloniki as simply laughable. General Danglis, the Greek chief of general staff, said:
"Let them come and take Saloniki if they can. Even the dust of our an-

Stockport Center, N. Y., Dec. 26.— The suffragette army which is marching to Albany to carry a secret message to Governer-elect Sulzer reached here this afternoon at 1 o'clock after a quick, easy march of five miles from The greetings received from townfelk of Stockport were of r

townfolk of Stockport were of rather an explosive and startling character. One enthusiastic citizen, without the least warning, fired his shotgun very near the marching pilgrims, causing every member of the band to jump in terror. "Surgeon" Dock narrowly escaped injury from a skyrocket which was set off to great the arriving suffragettes. It took some time for the pilgrims to realize that the pyrotechical display was meant as a friendly nical display was meant as a friendly fine physical trim that they spent the rest of the afterneon in counting down nearby hills on sleds borrowed from the Stockport small boys. huge bonfire tonight extemporaneous speeches were made and debates the suffrage movement conducted.

The army will cover the remaining twenty-seven miles to Albany in easy marches of five and ten miles a day, unless another forced merch should be called for by "General" Rosalis Jenes. Questioned today regarding a march from New York to Washington, D. P. to carry a message to President-elect Wilson at the time of his inauguration, "General" Jones admitted that she was giving such a trip very serious consideration.

SECTION FOREMAN

FOUND NOT GUILTY. Was Accused of Responsibility for Death of Track Laborer.

Fairfield, Conn., Dec. 26.—Michael Dolan, a section foreman on the New Haven road, was before Justice Wakeman in town court today, charged with mansiaughter on account of the death of Antonio Del Grosso, a laborer, employed by the road, who was killed recently at Southpart station by a train while at work, After a three hour session of court the justice discharged Dolan because of lack of evidence. The warrant for Dolan's arrest was issued upon the recommendation of Coroner Phelan. Dolan was in charge of a gang of workmen and when Del Grosso was killed it was alleged that he was responsible for the safety, of the men under his charge.
